

HU58™

High Potency Bacillus Subtilis

Bacillus Subtilis HU58 is a friendly bacterial spore that was discovered in a healthy human gut at the University of London. HU58 is an incredibly rugged spore that can withstand extreme pH levels, high temperatures, dehydration, antibiotics, pressure, radiation, and even the harsh environment of the digestive tract. It can also produce over 12 targeted antibiotics of its own, which makes it particularly effective at balancing gut flora.

HU58 can be taken with **MegaSporeBiotic** to support:

- Healthy gut flora balance
- Healthy digestion
- Healthy response to food
- Healthy gut response in conditions with intestinal inflammation

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 30

Amount Per Serving	% Daily Value
Probiotic Spore Bacteria	10 Billion CFU
<i>Bacillus subtilis, HU58™</i>	†

† Daily values not established.

OTHER INGREDIENTS: Pharmaceutical grade cellulose and vegetable capsule (hydroxypropyl methylcellulose).

Dosing Instructions:

Week 1: Take 1 capsule per day, during or after any meal.

Week 2: Take 2 capsules together, during or after any meal.
